

# SmartSwim™

## THE CHOICE IS YOURS

SmartSwim™ provides a variable speed swim spa experience, designed for swimmers of all skill levels. The all new SmartSwim™ is directly integrated with the SpaTouch™ panel, where a user can select between a timed swim, a manual swim or a pre-set workout. The swimmer can vary the water flow speed for exercising or use one of the programmable custom workouts.

# SmartSwim™

SPA CONTROL FOR A SMOOTH WORKOUT EXPERIENCE

## HOW DOES SMARTSWIM™ WORK?

SmartSwim™ provides a low cost swim spa solution. Our unique plumbing configuration ensures uniform water flow for a smooth workout experience. SmartSwim™ can be configured with 2, 3 and 4 two-speed pumps. Balboa's Ultimax XL pumps are an excellent choice for swim spa applications. A wide variety of workout modes ensure swimmers achieve their fitness goals.

Ultimax XL pump

Have a strict exercise regime? Timed Workout mode is for you.

Manual Workout mode gives you maximum water flow control.

Workout Program mode offers a wide selection of predefined workouts to help you reach your fitness goals.

## INTEGRATED TOPSIDE PANELS

The swimmer's experience is enhanced by several topside panels that provide quick and easy control.
